## Mock Trials

This week, the 6th Grade Social Studies students participated in a Mock Trial titled "Ancient Egypt vs. History." Pictured here is the beautiful Cleopatra on the witness stand. Students took on various roles, including jury members, witnesses, prosecution lawyers (who aimed to prove that Ancient Egypt was not the greatest civilization in history), and defense lawyers (who defended Egypt's historical significance). Each student prepared their statements and questions in a convincing and logical manner to help the jury understand their arguments and present historical evidence effectively.

This talented group of students expanded their knowledge as they explored the wonders of the Rainforest in God's creation.

It's Operation Christmas Child time! Northland Christian School is packing shoeboxes for Operation Christmas Child again this year. The homeroom classes will compete to see who can pack the most boxes. In 2023, NCS packed 229 boxes. Our goal this year is to pack 250 boxes! An all-school Hot Chocolate and

S'mores Day incentive will be awarded if NCS meets the 250 box goal! Let's be generous in spreading the love of Christ around the world through the simple gift of a shoebox. Please return your filled boxes by **THIS WEDNESDAY**. We will also invite families to consider donating the cost of shipping the boxes. You can send in \$10 cash to help cover the shipping and other project costs, or you can pay for the label online and send in the pre-paid label with your student to track the box.

## **AP Government's Presidential Road Maps**

AP Government students were assigned the task of creating "Presidential Road Maps" to illustrate the 8-9 steps a candidate takes on the road to the White House. They had the freedom to choose any landmarks for their visual representations of this journey. The students incorporated a variety of creative landmarks, including Disney characters, references from Harry Potter, classmates as landmarks, various types of candy, and different locations at OSU, among others. Each landmark needed to include a title explaining the step or landmark, a small symbolic visual representation (either hand-drawn or computer-generated) of that step or landmark, and a brief summary of its significance.
