

Middle School Mathematics Teacher

Position Overview

Northland Christian School, a premier Preschool–12th grade Christian school in the Houston area, is seeking a highly qualified Middle School Mathematics Teacher for the current 2026–2027 school year.

The successful candidate will teach middle school mathematics courses ranging from Math 6 through Pre-Algebra and will be passionate about helping students develop strong mathematical foundations, confidence, and critical-thinking skills.

We are seeking an educator who provides clear, engaging, and appropriately paced instruction, models mathematical concepts effectively, checks regularly for student understanding, and provides meaningful opportunities for guided and independent practice. The ideal candidate will maintain high academic expectations while recognizing and responding to the developmental and academic needs of middle school students.

Northland Christian School is committed to excellence in academics, spiritual development, fine arts, athletics, and the overall student experience. Our faculty combine the high standards of an independent school education with a distinctly Christian worldview and a commitment to developing students academically, spiritually, and personally.

Northland is a close-knit, family-oriented community where many students attend from preschool through graduation. Our graduates have continued their education at outstanding colleges and universities across the country, including Harvard University, The University of Texas at Austin, Texas A&M University, the United States Air Force Academy, Baylor University, Colorado School of Mines, and many others.

Our faculty seek to instill in students a lifelong passion for learning while preparing minds for leadership and hearts for service. We desire educators who model Christian character, build meaningful relationships with students and families, collaborate effectively with colleagues, and create classrooms where students are challenged, supported, and known.

Mission Alignment

The Middle School Mathematics Teacher is a committed follower of Christ who desires to use their gifts to support Christian education. The Middle School Mathematics Teacher is expected to model integrity, humility, and professionalism while contributing to a Christ-centered school culture.
